

## Quarterly Disclosure Statement for 1 July 2014 – 31 March 2015 Kiwi Wealth KiwiSaver Scheme Default Fund

### What is the purpose of this statement?

This statement provides key information about the Kiwi Wealth KiwiSaver Scheme (called the Gareth Morgan KiwiSaver Scheme before 1 April 2014) Default Fund. It tells you how the fund has performed and what fees it charged, and will help you to compare it with other funds. We prepared this statement in accordance with the KiwiSaver (Periodic Disclosure) Regulations 2013. This information is not audited and may be updated.

### Description of the fund

The Default Fund holds 15% - 25% in shares at all times, with the remainder (75% - 85%) invested in a combination of cash and fixed interest assets. The objective is to deliver a benchmark return similar to being invested in a portfolio of 50% in New Zealand cash, 30% in New Zealand fixed interest and 20% in shares, through a combination of active and passive management.

*The Default fund is referred to as the "Default investment portfolio" in the Kiwi Wealth KiwiSaver Scheme investment statement and prospectus.*

Total value of the fund	\$22,825,859
Number of members in the fund	6,817
Date the fund started	1/7/2014

### How has the fund performed?

	Past period (1 July 2014 to 31 March 2015) <sup>1</sup>
<b>Annual return</b> <i>(after deductions for fund fees and tax<sup>2</sup>)</i>	4.23%

### How has the fund performed in the past?

The fund has not been in existence for a full tax year. Therefore the graph shows only the return since the fund started on 1 July 2014 until 31 March 2015; it is not a full year return. It's important to note that this doesn't tell you how the fund will perform in the future.

## What fees were members charged?

The returns above are after deductions for **fund fees**<sup>3</sup>. These fees were totalled up for the period 1 July 2014 to 31 March 2015 and were:

Total fund fees	0.95 % of members' investments
<i>Which are made up of:</i>	
Annual management fee	0.94% <sup>4</sup>
Performance-based fees	0.00%
Other fees and costs <sup>5</sup>	0.01%

Members were also charged **membership fees**<sup>6</sup> of \$0 for the period 1 July 2014 to 31 March 2015.

*The annual management fee is referred to as the "annual member fee" in the Kiwi Wealth KiwiSaver Scheme investment statement and prospectus. The fund's actual annual management fee is charged at 0.55% per annum. The annual member fee each member pays is subject to a minimum fee of \$40 per annum. Therefore for members with an account balance of less than \$7,272, the actual member fee charged as a percentage of the member account balance may be higher than that stated in the Kiwi Wealth KiwiSaver Scheme investment statement and prospectus.*

### Example of how this applies to a member

Alice had \$10,000 in the fund at the start of the period commencing 1 July 2014 and didn't make any further contributions. At the end of the period, Alice received a return after fund fees and tax were deducted of \$423 (that's 4.23% of her initial \$10,000). Alice also paid \$0.00 in membership fees. This gives Alice a total return of \$423 for the period.

## Notes

<sup>1</sup>This return is for the period 1 July 2014 to 31 March 2015, it does not represent a full year's return and it is not annualised.

<sup>2</sup>Returns in this statement are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax rate may be lower.

<sup>3</sup>Fund fees are fees charged as a percentage of a member's interest in the fund (i.e. as a percentage of their KiwiSaver account balance).

<sup>4</sup>The total fund fee calculated for the purposes of this disclosure statement is materially different to how total fund fees are charged to an individual member due to the period of time the fund has been in existence resulting in significantly below average account balances in the fund. The fund's actual annual management fee is charged at 0.55% per annum subject to a minimum fee of \$40 per annum.

<sup>5</sup>An estimate has been used to calculate the underlying fund fees which are included in 'Other fees and costs'. Underlying fund fees have been estimated using end of month holdings and the total expense ratio (TER) stated in the underlying funds' disclosure statements.

<sup>6</sup>Membership fees are the fixed dollar charges for membership in the KiwiSaver scheme.

<sup>7</sup>The target investment mix is the asset allocation mix of our chosen benchmark for the fund. The actual investment mix will at times differ to the target investment mix because we have an active and passive investment management style.
